

DIRECT EXPORT

University of Central Florida Libraries

The following is an example for databases:

which includes some of the following

Academic Search Premier	CINAHL	Hospitality & Tourism	Sports Discus
American: History & Life	EconLit	MedLine	Music Index Online
ATLA Religion	ERIC	MLA	
Biological Abstracts	Health Source	PsycINFO	
Business Source Premier	Historical Abstracts	RILM	

The screenshot shows the EBSCO database interface. At the top, there are navigation tabs for 'Citation' and 'Linked Full Text'. Below the tabs, there are icons for printing, emailing, saving, and exporting. The main content area displays the following information:

- Title:** Who blogs? Personality predictors of blogging.
- Authors:** [Guadagno, Rosanna E.](#) [Rosanna@ua.edu](#), [Okdie, Bradley M.](#)¹, [Eno, Cassie A.](#)¹
- Source:** [Computers in Human Behavior](#); Sep2008, Vol. 24 Issue 5, p1993-2004, 12p
- Document Type:** Article
- Subject Terms:** [*PERSONALITY tests](#), [*PERSONALITY assessment](#), [*BLOGS](#), [*INTERNET users](#)

An 'Export' button is located in the top right corner of the article details section, and a red arrow points to it.

1. Select (If selecting more than one article  first, then Export. From the "Folder" view you will need to place a check mark in front of the citations you want to export).

The screenshot shows the 'Export Manager' dialog box. It has a 'Back' button and two tabs: 'Save' and 'E-mail'. The 'Save' tab is active. The dialog displays the following information:

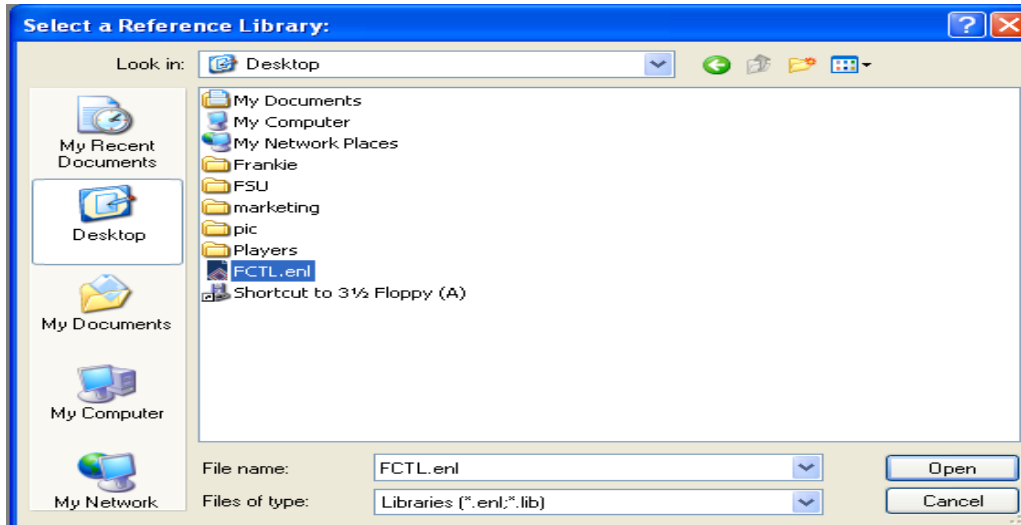

- Number of items to be saved:** 1
- Save citations to a file formatted for:**
 - Direct Export to RefWorks
 - Direct Export to EndNote, ProCite, or Reference Manager
 - Generic bibliographic management software

A green arrow points to the 'Direct Export to RefWorks' option.

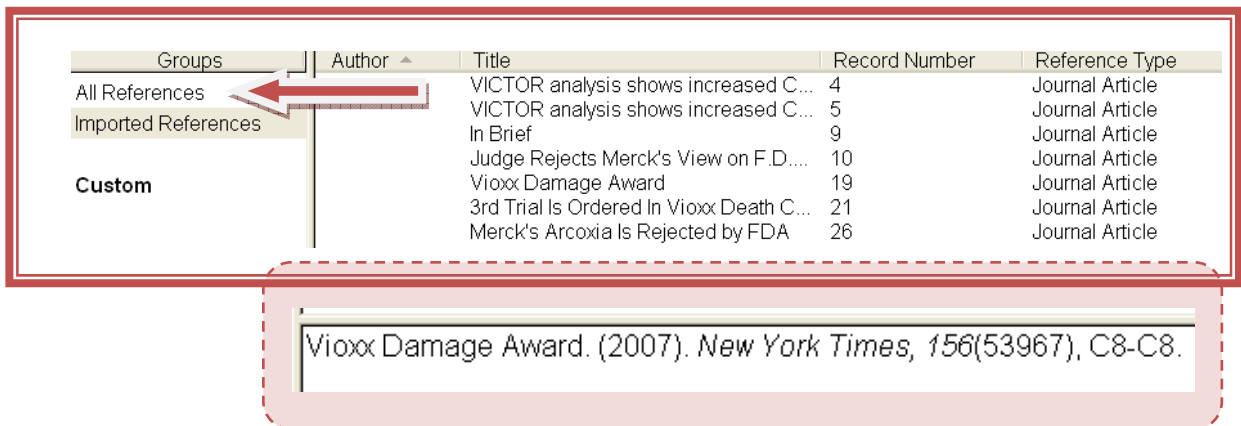

2. Choose "Direct Export to RefWorks or EndNote"
3. Once you click on SAVE, RefWorks or EndNote will open up. Directions for each are listed below.

EndNote:

1. Once you hit SAVE, EndNote should automatically open. You be prompted to “SELECT A LIBRARY” to save the citations in for further use.
2. Find the **Library (.enl)** you created, then Click OPEN.

3. Your **Library** will open; however, you will only see the ‘Imported References.’ To display all your citations, choose **All References** on the left-hand side of your library. You may want to check the citations, in case something did not export correctly.

RefWorks:

1. Once you click on SAVE, RefWorks will open asking you to login. Once logged in citations will begin importing to your account. You will see the following:

Import from ebsco

[Back to Reference List](#)

Importing references, please wait...

Import completed - 30 references imported

[View Last Imported Folder](#)

[View Log](#)

The default Source Type for imported reference(s) is set to Print. You can choose to add electronic source related information in the fields below. All references from your last import will be updated with any information you provide. Some electronic source related information may be included by the data vendor and if so, will appear in the fields below.

Globally Edit Fields for Imported References	
Data Source	ebsco Leave Existing Data Alone
Database	<input type="text"/> Leave Existing Data Alone
Links	<input type="text"/> Leave Existing Data Alone
Retrieved Date	9/26/2007 Leave Existing Data Alone
Edit Fields	

2. You can make a global edit to all the citations you brought in using the box at the bottom. Fill in the name of the database you used (ex. Academic Search Premier or PsycInfo). Once you have made this global edit you can click on “View Last Imported Folder” to see all citations. From here you can move the citations to your folder(s).

Last Imported Folder

Switch to: APA - American Psychological Association, 5th Edition

Use: Selected Page All in List Sort by: Authors, Primary
